SECTION II. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the Scheme may go up or down. As with any investment in stocks, shares and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Principal Pnb Fixed Maturity Plan – Series B13 is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor or any of its associates including co-settlors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of ₹25 lakhs made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme

Scheme Specific Risk Factors:

• **Schemes investing in Bonds** –

RISK(S)	RISK MITIGATION FACTORS
Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.	The Fund seeks to mitigate this risk by investing in securities that are maturing on or before the maturity of the Scheme.
Credit Risk: In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent.	The Fund seeks to control credit risk by investing in rated papers of the companies having strong fundamentals, sound financial strength and superior quality of management.
Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
Liquidity and Settlement Risks: The liquidity of the Scheme's investments may be inherently restricted by	The Fund seeks to mitigate this risk by focusing on good quality paper at the time of portfolio construction and by

trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors etc. based on certain investment parameters as adopted internally by AMC. While at all times the Trustees and the AMC will endeavor that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme be avoided, the assets invested by the Scheme in certain securities of industries, sectors etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. The Scheme may have difficulty in disposing of certain securities because the security may be unlisted, due to greater price fluctuations there may be a thin trading market, different settlement periods and transfer procedures for a particular security at any given time. Settlement if accomplished through physical delivery of stock certificates is labour and paper intensive and may affect the liquidity. It should be noted that the Fund bears the risk of purchasing fraudulent or tainted papers. The secondary market for money market/debt securities does exist, but is generally not as liquid as the secondary market for other securities. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event, such as the deterioration in the creditworthiness of the issuer, etc. or during restructuring of the Scheme's investment portfolio.

investing in securities having liquid market.

- **Risks associated with Listing and Trading of the Scheme**

Although Units will be listed on NSE there can be no assurance that an active secondary market will develop or be maintained. Units may also be listed on BSE and/or other stock exchange(s) at the discretion of AMC. Consequent reference herein to NSE shall be deemed to mean and include BSE and/or such other Stock Exchange(s). Trading on NSE may be halted because of market conditions or for reasons that in view of the market authorities or SEBI, trading in the Units is not advisable. In addition, trading is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange(s) and /or SEBI 'circuit filter' rules. There can be no assurance that the requirements of the market necessary to maintain the listing of the Units will continue to be met or will remain unchanged. The AMC and the Trustees will not be liable for delay in trading of Units on the stock exchange(s) due to the occurrence of any event beyond their control.

Risk factors specific to Principal Pnb Fixed Maturity Plan – Series B13:

In case of Fixed Income and Government Securities, changes in the prevailing rates of interest are likely to affect the value of the Scheme's holdings (and thus the value of the Scheme's units). Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the value of the units. The value of securities held by the Scheme generally will vary inversely with changes in prevailing interest rates.

B. REQUIRMENT OF MINIMUM NUMBER OF INVESTORS

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 business days of the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS, IF ANY

Investment in the Scheme should be viewed by an investor/unitholder as a medium term investment as mutual funds carry normal market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective. It is recommended that an investment in the Scheme should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all, as investment decisions made by the AMC will not always be profitable or prove to be correct. As with any investment in stocks and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets. Past performance of the schemes of Principal Mutual Fund, the Sponsor or its Group affiliates is not indicative of and does not guarantee the future performance of the Scheme. The name of the Scheme does not in any manner indicate the quality of the Scheme, its future prospects or the returns. Units may trade at a premium/discount to the Scheme's NAV. The Scheme is not intended as a complete investment program. Investors, therefore, are urged to study the terms of this offer carefully and consult their Investment Advisor before they invest in the Scheme. Investors'/unitholders' attention is drawn to the risk factors set out in the beginning of this Scheme Information Document and also to the following specific risks:

Regulatory Risks: Neither this SID nor the Units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of this SID are required to inform themselves about, and to observe, any such restrictions. No person receiving a copy of this Scheme Information Document or any accompanying application form in such jurisdiction may treat this SID or such application form as constituting an invitation to them to subscribe for Units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly, this Scheme Information Document does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any persons in possession of this Scheme Information Document and any persons wishing to apply for Units pursuant to this Scheme Information Document to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction.

Prospective investors should review/study this SID along with SAI and KIM carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscription, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of Units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of Units within their jurisdiction/of nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift Units are subject, and (also) to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding Units before making an application for Units.

No person has been authorized to give any information or to make any representations not confirmed in this SID in connection with the Offer of Units, and any information or representations not contained herein must not be relied upon as having been authorized by the Mutual Fund or the AMC or the Trustee. Statements made in this SID are based on the law and practice currently in force in India and are subject to change therein. Neither the delivery of this SID nor any

sale made hereunder shall, under any circumstances, create any impression that the information herein is correct as of any time subsequent to the date hereof.

Performance Risk: The value of (and income from) an investment in the Scheme can decrease as well as increase, depending on a variety of factors, which may affect the values and income generated by a Scheme's portfolio of securities. The returns of a Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, changes in government and Reserve Bank of India policy, taxation, political, economic or other developments and closure of the stock exchanges. Investors should understand that the investment composition indicated for the Scheme(s), in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there can be no assurance that the scheme's investment objective will be attained nor will the scheme be in a position to maintain the model percentage of investment pattern/composition particularly under exceptional circumstances such that the interest of the unitholders are protected.

Changes in the prevailing rates of interest are likely to affect the value of the scheme investments and thus the value of the scheme's units. The value of money market/debt instruments held by the scheme generally will vary inversely with the changes in prevailing interest rates. The AMC, while investing in fixed-income instruments like debt, etc., shall consider and evaluate the risk of an issuer's ability to meet principal and interest payments (credit risk) and also the price volatility due to such factors as interest sensitivity, market perception or the creditworthiness of the issuer and general market liquidity (market risk). While it is the intent of the AMC to invest primarily in more highly rated debt securities and highly researched growth companies, the scheme may from time to time invest in high yielding/growth, lower rated and/or privately placed/unlisted/securitised securities. Lower rated securities are more likely to react to developments affecting market and credit risk than highly rated securities. The credit risk factors pertaining to lower rated securities also apply to lower rated zero coupon, deferred interest bonds.

Political Risk: Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved the removal of trade barriers and other protectionist measures, which could adversely affect the value of investments. It is possible that future changes in the Indian political situation, including political, social, or economic instability, diplomatic developments and changes in laws or regulations could have an effect on the value of investments. Expropriation, confiscatory taxation, or other relevant developments could also affect the value of investments.

Overview of Debt & Money Market in India

Indian debt markets have witnessed a rapid growth in the last decade aided by increased government borrowing and initiatives by Reserve Bank of India to implement structural changes in the market place. The debt market is primarily divided into four segments - Government Securities Market, Corporate Debt Market, Money Market and Derivatives market. The main participants in debt market are banks, primary dealers, mutual funds, insurance companies, provident funds and corporates. The primary risks associated with fixed-income investment are interest rate risk, credit risk and liquidity risk.

While government securities market is highly liquid and accounts for almost 90% of daily market turnover, the Corporate Debt Market is also well developed especially for instruments maturing upto ten years and Derivatives markets are developing rapidly. The volumes in the government securities market range between ₹ 5000 to ₹ 20,000 crores. The government securities are issued in the form of Treasury Bills (91,182 and 364 days) and long-term bonds. The corporate debt issuance is in the form of short-term commercial papers (upto 1yr) and Debentures. The short-term placement market comprises Money Market Instruments, Bank Deposits etc.

The money market in India essentially consist of Call / Notice / Term Money Market (i.e. market for overnight and term money between Banks and Primary Dealers), Repo transactions, CBLO, Commercial Papers (CPs, short term unsecured promissory note, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI).

INVESTMENT PROCESS

There is separate team for investment in fixed income instruments & equities. The team works under the supervision of Chief Investment Officer (CIO). CIO is overall in charge for the Fund's investment.

Debt – Decision making process:

The debt team comprises of the Head – Fixed Income, Fund Manager, Credit Analyst & Dealer. The Fund Manager holds charge of the schemes under his management. He is responsible for the performance of the schemes under him. Role of Credit Analysts is to study all companies in which the fund is investing for credit quality. The dealer executes the trading mandates that are passed onto him with a view to getting the best execution in terms of price and quantity.

A Credit Committee (CC) comprising of Managing Director, Chief Investment Officer, Chief Finance Officer, Head – Fixed Income and the Debt Fund Manager has been constituted to approve the investment in Securities having credit risks. The decision making in the committee is by majority vote. The investment proposals in specified format are put up before the committee for their approval. The Fund Manager can invest only in those credits that have been approved by the committee. Such approvals are kept to record the decision taken at the credit committee meeting. No specific approval is required for investment in Government Securities and Treasury Bills.

The AMC has been recording investment decisions since the receipt of instructions from SEBI.

Review by Board of AMC and Trustees

A detailed review of the schemes of the Fund including its performance vis-à-vis benchmark index, assets size, rankings/ratings received, if any is placed before the Board of Directors of AMC and to the Trustee on a quarterly basis.

D. WHERE WILL THE SCHEME INVEST?

- Investment by the scheme will be made only in such instruments which mature on or before the date of maturity of the Scheme.

Other disclosures for close ended schemes

I. Credit Evaluation Policy

The Head of Fixed Income (HoFI) is responsible for reviewing the credit risk in the Debt portfolio of the Schemes and is also accountable for:

- Continually identifying credit opportunities;
- Generating credit risk proposals to facilitate timely approvals so as not to lose acceptable credit opportunities;
- The HoFI evaluates and recommends the proposals to the Investment Committee (IC) which is the approver of the credit risk.
- Reviewing and ensuring that the entire portfolio credit exposure would be subject to the restrictions specified under the section titled “Investment Restrictions”

Process flow for ‘CREDITS’ approvals:

1. The Credit Analyst (CA) prepares and sends the Credit Review (in the Principal Financial Group [PFG] format) for the "Issuer", which the HoFI has approved in principle for credit risk;
2. The Credit Review, if supported by the HoFI, is forwarded to the members of the IC;
3. The HoFI while submitting such proposal to IC duly highlights the associated risks (financial, reputational and regulatory) etc. in his recommendations;
4. The IC conveys its decision (with a minimum of two Members consenting) within the stipulated time;

5. The approval once received is added to the list of 'In Principle' approvals;
6. All credits once approved are added to the 'credit tracker' and form part of review process.

The Credit Review prepared by the Credit Analyst broadly covers the following points:

A. Key Points :

- Date of report, name of analyst;
- Type of instruments (long term / short term / secured / unsecured);
- Company profile : Brief about the company, Industry;
- Ratings : External / Internal.

B. Financials (relating to last three financial years [if available] including cash flows and ratios)

C. Review of the financials (with specific attention to the following):

- Revenue of the company
- Capital adequacy Ratio
- Existing liability of the company (credit concentration, borrowing, outstanding tax liability etc.)

D. Outlook and recommendations

The approval for Credit unless otherwise stated, is valid for a year. Before the expiry of the approval period, the credit analyst reviews the approved credits to seek necessary approval extensions if deemed appropriate. Accordingly a request for further extension may be referred.

Process flow for review of existing 'in-principle' approved credits

1. The Credit Analyst is expected to carry out a daily review of the rating updates, news, material events and incorporate the updates in the 'credit tracker'[#].
2. The Credit Analyst; as at the end of every month end appraises the IC through HoFI about the updation in the 'credit tracker' with respect to rating (if any) and any significant remarks/ notes;
3. The Investment Committee reviews the HoFI's comments/ recommendations and reaffirms/removes the names in the approved horizon list and communicates the same to the HoFI, basis which investments are accordingly carried out.

[#]'credit tracker' is an internal record /tracker sheet which lists down /provides details on (a) names of the banks/corporates in our approved horizon (b) ratings from external rating agency (c) date of last rating reaffirmation (d) internal limit, if any, for exposure term/horizon (e) material developments/news/meeting or conference call notes since the date of the rating and (f) and a link to the rating summary by the external rating agency.

- II.** As such all investments of the Scheme will be made in accordance with SEBI Regulations including Schedule VII thereof. The Scheme has no intention to invest in Securitized Debt, Credit Default Swap, Derivatives and Foreign Debt Instruments including Foreign Securitized Debt and/or participate in Short Selling & Securities Lending. Further, the Scheme shall not invest in Debt & Money Market Instruments issued by Companies predominantly engaged in Real Estate Sector Airline and Gems & Jewelry and in repos of Corporate Bonds and Equity Linked Debentures
- III.** The Scheme intends to invest in the following securities within the floor and ceiling limit as indicated in the table below, within a range of 5% of the intended allocation:

IV.

	Credit Rating (%) A1+	Credit Rating(%) AAA	Credit Rating(%) AA	Credit Rating(%) A	Credit Rating(%) BBB	Credit Rating(%) Not Applicable
Certificate of Deposits (CDs)	-	-	-	-	-	-
Commercial Papers (CPs)	-	-	-	-	-	-
Non-Convertible Debentures (NCDs) / Bonds	-	-	95%-100%	-	-	-
Cash & Cash Equivalent (REPO of G-Sec/T-Bills)	-	-	-	-	-	0 - 5%

Notes:

- a) All investments will be made basis the rating prevailing at the time of Investment. If dual ratings are prevailing for any particular instrument in which investment is being made, the Fund would consider the most conservative public available rating for the said instrument, for the purpose of intended allocation range – for e. g. if for a particular investment CRISIL has rated it as AAA, but ICRA has rated it as AA then the Fund would consider it as AA rated instrument.
- b) The Scheme has no intention to invest in unrated debt instrument and derivatives.
- c) The rating symbols as specified in the above intended allocation range would include modifiers like + (plus) / - (minus) (which reflects the comparative standing within the Category) to each rating symbol viz. AA would include AA+ or AA-. Securities with Rating AA will include AA+ and AA-. Similarly, securities with Ratings A1 will include A1+
- d) The Scheme reserves the right to invest in another scheme under the same AMC or any other Mutual Fund, subject to investment restriction as prescribed in the SEBI (Mutual Funds) Regulations, 1996 in this regard.
- e) The Scheme shall ensure that the total exposure in a particular sector (determined as per AMFI classification) (Excluding investments in Bank CDs, CBLO, Government Securities, T-Bills and AAA rated securities issued by Public Financial Institution and Public Sector Banks) shall not exceed 30% of the net assets of the Scheme.

Provided that an additional exposure to financial services sector (over and above the limit of 30%) not exceeding 10% of the net assets of the Scheme shall be allowed by way of increase in exposure to Housing Finance Companies(HFCs) only. Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/exposure in HFCs shall not exceed 30% of the net assets of the Scheme.

There would be no variation between the intended portfolio and the final portfolio, subject to the following:

- (i) Positive variation in investment toward higher credit rating in the same instrument may be allowed.
- (ii) The order of risk-reward in instrument categories could be considered as Certificate of Deposits (CD) being of lower risk compared to CP/NCDs. The Fund Manager can deploy funds in CDs (with highest rating category i.e. A1+) or Collateralized Borrowing and Lending Obligation (CBLO) or Government Securities (G-sec) or Treasury bill (T-bills), in case Commercial Papers (CPs)/ Non – Convertible Debentures (NCDs)/Bonds, are

not available or the Fund Manager is of the view that the risk-reward is not in the best interest of the Unit holders.

Similarly, the Fund Manager can deploy funds in G-sec or T-bills or CBLO, incase CDs are not available or the Fund Manager is of the view that the risk-reward is not in the best interest of the Unit holders.

- (iii) At the time of building up the portfolio post NFO and towards the maturity of the Scheme, the Fund Manager may deploy (upto 100 %) the funds in cash/cash equivalents/in units of money market/liquid schemes of Principal Mutual Fund and/any other mutual Fund in terms of applicable regulations, for temporary period.
- (iv) Changes in the investment pattern will be for defensive considerations and the intention being at all times to seek to protect the interests of the Unit Holders and may be caused due to reason such as non – availability of the appropriate assets as mentioned in the above asset allocation matrix or due to perceived weakness in the credit worthiness of the issuer of the assets which are held in the portfolio during the tenor of the Scheme. Such deviations shall be reviewed periodically and the Fund Manager shall do the rebalancing of the portfolio within 30 days from the date of the deviation to bring it in alignment with the asset allocation pattern as indicated above.

Depository

Securities of the Scheme will be held in dematerialised form. In case the securities are held in dematerialized (electronic) mode, the rules of the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996, would apply. The service charges payable to the Depository Participant will form a part of the annual recurring expenses.

E. WHAT ARE THE INVESTMENT STRATEGIES?

Predominantly, investments would be in money market instruments and debt instruments and Government Securities. Investment by the Scheme will be made only in such instruments which mature on or before the date of maturity of the Scheme. The Scheme will have a portfolio in line with the maturity of the Scheme. The Scheme will have two option viz. Growth and Divided Option.

As a risk control measure the Fund while investing in fixed-income instruments like debt, etc., considers and evaluates the risk of an issuer's ability to meet principal and interest payments (credit risk) and also the price volatility due to such factors as interest sensitivity, market perception or the creditworthiness of the issuer and general market liquidity (market risk).

Portfolio Turnover Rate

The Portfolio Turnover Rate (PTR) means the Lower of aggregate sales or purchases made during a particular year /period divided by the Average Asset Under Management (average of Assets Under Management on last day of month) for the relevant year / period.

"Portfolio Turnover" is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Scheme's portfolio during the year.

Portfolio turnover in the Schemes will be a function of market opportunities. The economic environment changes on a continuous basis and exposes debt portfolio to systematic as well as non-systematic risk. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The Fund Manager will endeavour to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips / securities held in the portfolio rather than an indication of a change in AMC's view on a scrip, etc.

Such redemption proceeds on maturity will be paid by means of a rupee cheque payable to the designated NRE/NRO account of the unitholder or by a US dollar (or any other currency) draft drawn at the exchange rates prevailing at that time and subject to RBI procedures and approvals and subject to deduction of tax at source, as applicable. In the event of failure to dispatch the redemption proceeds within the statutory period specified above as per the SEBI Regulations, the AMC shall be liable to pay interest to the unitholders at such rate (currently 15% per annum) as may be specified by SEBI for the period of such delay.

Electronic Credit Clearing Services (ECS)/National Electronic Funds Transfer (NEFT) - Identified Banks

ECS/NEFT is a facility offered by RBI for facilitating better customer service by direct credit of dividend or repurchase amount to a unitholder's bank account through electronic credit. This helps in avoiding loss of dividend or repurchase warrant in transit or fraudulent encashment. The Fund will endeavour to arrange such facility for payment of dividend/redemption proceeds to the unitholders. However, this facility is optional for the unitholders. Redemption proceeds on maturity may be released through the ECS /NEFT facility to unitholders residing in any of the cities where such a facility is available. In order to avail the above facility, the unitholder will have to give a written request to the Registrar. If the unitholder has opted for the ECS/NEFT facility his/her bank branch will directly credit the amount due to them in their account whenever the payment is through ECS/NEFT. The Registrar will send a separate advice to the unitholder informing them of the direct credit.

It may be noted that there is no commitment from the Fund that this facility will be made available to the unitholders for payment of dividend/redemption proceeds. While the Fund will endeavour in arranging the facility it will be dependent on various factors including sufficient demand for the facility from unitholders at any centre, as required by the authorities. In places where such a facility is not available or if the facility is discontinued by the Fund for any reason the redemption warrants will be mailed to the unitholder.

Unitholder's Bank Account Details

Unitholders are on a mandatory basis required to mention their bank account details in their applications/requests for redemption. Redemption Cheques and/or any other instruments will then be made out in favour of the Bank for crediting the respective unitholder's account so specified.

The normal processing time may not be applicable in situations where such details are not provided by unitholders. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and delay/loss in transit.

Closure of Unitholder's Account

Unitholders may note that the AMC at its sole discretion may close a unitholder's account after giving notice of 45 days where the units are held by a unitholder in breach of any Regulation.

C. COMPUTATION OF NAV

The NAV of the Scheme for each option at any time shall be determined by dividing the net assets of the Scheme by the number of outstanding units on the valuation date.

The NAV of the Scheme will be calculated on a daily basis as shown below:

$\text{NAV per unit} = \frac{\text{(Market / Fair Value of Securities + Accrued Income + Receivables + other assets - Accrued Expenses - payables-other liabilities)}}{\text{No. of units outstanding of the Scheme / Option}}$

The NAV will be calculated up to four decimals. The NAVs will be declared on every Business Day by 9.00 p.m.

The computation of Net Asset Value, valuation of assets, computation of applicable Net Asset Value (related price) for repurchase, switch and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds.

The dividend paid on units under the Dividend Option of the Fund shall be deducted in computing the NAV of the units under the Dividend Option, each time a dividend is declared and till it is distributed. Consequently, once the dividend is distributed, the NAV of the units will always remain lower than the NAV of the units under the Growth Option. The income earned and profits realized attributable to the units under the Growth Option shall remain invested and shall be deemed to have remained invested in the Growth Option (exclusive of the units under the Dividend Option) and would be reflected in the NAV of the units under the Growth Option.

The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

The first NAV will be calculated and announced within a period of 5 business days after the close of the NFO Period. Subsequently, the NAV shall be calculated on all Business Days and released for publication in at least two daily newspapers having circulation all over India.
